Help Accelerate the Mobiles for Education Alliance!

Project Title	Help Accelerate the Mobiles for Education Alliance!
Project Summary	You'll provide support for several Mobiles for Education Alliance activities over the year. The mEducation Alliance is the leading global consortia of USG and international development agencies focused on the use of ed tech in low-resource, developing country context.
Country	United States

Project Description

Want to be at the cutting edge of institutions exploring the use of ed tech for supporting learners in developing countries around the world? The organizers of the Mobiles for Education (mEducation) Alliance are seeking motivated and energetic interns to contribute to our Covid-19 response efforts over the next few months. The mEducation Alliance is a consortia of USG and international development organizations and associations researching, investing in, and catalyzing the use of a wide range of technologies to support learners in formal and non-formal educational settings. Over the next year, we will be organizing several virtual Symposium and expanding the range of ed tech knowledge products including through our website and publications. Through this internship, you'll have the opportunity to meet leading international experts from a variety of institutions who are responsible for helping shape their institution's strategic and evidence-driven investments in ed tech.
